Gas Generating Set

YORKING CORPORATE CULTURE

About YORKING

Yorking is specialized in the development and production of generator set, mobile light tower and water pump etc power equipment. We persist in technology innovation and product improvement to achieve sustainable development, focus on providing high quality customized power solutions.

Yorking has the wide product line. Diesel generator set range is from 2KVA to 2000KVA, while the configuration will vary with the actual demands of customers. Yorking' s gas generator range is from 10KVA to 500KVA. The gas generator can run with many kinds of gas, such as natural gas, biogas, landfill gas. Yorking portable generators feature excellent performance and lightweight structure, suitable for a variety of emergency power supply. Yorking light tower features strong illumination and easy operation. Yorking water pump includes self-priming and sewage pump two lines with portable and trailer two kinds of structures. Yorking provides one-stop power sourcing service to customers. From product design to after-sales service, Yorking always make customer peace of mind with professional skills and consideration of customer's concerning and demand.

Yorking performs strict quality control. ISO standards are conducted in every stage from product design to production or final testing. Our goal is to delivery zero defect products to customers.

ONE-STOP POWER SOURCING SERVICE

GAS GENERATING SET

Yorking natural gas generator features lower operation cost than diesel generator, which is suitable for synchronizing with the grid, off-grid running.

To make the operation easy, Yorking will provide the remote control system via Wifi as optional. You can easily monitor the unit operation with the cell phone or computer.
